View the 'BIG PICTURE'

Planning is the key to success and it is of course essential to communicate developments on a continuous basis to everyone concerned to ensure objectives are achieved.

In a busy working environment it is important reasons for amendments are clearly understood whilst sight is not lost of the overall objective or of the dependencies attached to revised commitments.

The benefits of being able to visualise a 'Big Picture' constantly displaying the current and projected status of all stages of a plan has been recognised by countless companies. However, it has proved elusive to the P.C. user.

Although the computer is an important planning instrument, when it comes to presenting an overview Efficienta Planning Display Systems lead the field. The system is specifically designed to create an informative 'Big Picture' that is easily updated to clearly display the shifting status of a plan.

The system consists of robust interlocking panels and ingenious magnetic signals manufactured to exacting standards enabling displays to be easily produced to suit all locations from Boardroom to Workshop.

The flexibility of the system ensures it will easily adapt to meet your specific requirements and provide an effective solution to creating that elusive 'Big Picture'.

- **Displays a constant working summary of shifting milestones, deadlines and key events contained within a group of interdependent activities.**
- **Clearly portrays all participants ongoing commitments and achievements.**
- **Produces a distinct visual representation of the efficiency and clear thought process within a department.**

CTURE'

at a glance

A system to suit all requirements. Select from a range of boxed standard boards or create a display using the modular system. Wall mounted or free standing.

Ingenious magnetic textplates have a profiled rear section that firmly locates onto the ribbed display. To reposition simply slide along the chosen planning line. Textplates snap cleanly to size to align with pre-gridded surface.

Write on – wipe off reusable text plates and pre-cut rod signals available in four sizes and twelve colours.

- **Robust interlocking modular panels enable displays of any size to be created.**
- **Ingenious magnetic signals create impressive displays suitable for all locations from Boardroom to Workshop.**
- **Product Specialists are available to assist in selecting the system to suit your requirements.**

A PROFESSIONAL DISPLAY SYSTEM IN FOUR EASY STAGES

MODULAR PANELS: Interlocking metal panels in ten or twenty cm width are available in 180, 120 & 60 line heights each with horizontal 1 cm increments that can be subdivided as required.

INDEX PANELS: Choose either a card or standard Index panel both designed to slide across the face of the display allowing individual lines of information to be easily tracked.

WALL TRACKING: Modular sets of double tracked wall rails (front track for sliding index) available in three standard lengths.

MAGNETIC SIGNALS: Select from reusable magnetic text plates, that have a wipe clean writing surface and simply snap to size or pre-cut rod signals.
